

# SORANG KANG

Internal Medicine PGY2, Englewood Hospital and Medical Center

[Sorang.Kang@EHMCHHealth.org](mailto:Sorang.Kang@EHMCHHealth.org) 201-682-6325.

## EDUCATION / TRAINING

---

Englewood Hospital and Medical Center  
Internal Medicine Residency 06/2024 – Present

Catholic University of Korea, College of Medicine  
M.D. 03/2019 – 02/2023

Seoul National University  
Electrical and Computer Engineering  
B.S.E. 03/2014 - 02/2019

## HONORS

---

Academic Scholarship, Catholic University of Korea 03/2019 – 02/2023

- Awarded 30% of tuition for 6 semesters for excellence in academics

Summa Cum Laude, Seoul National University 02/2019

- Graduated as top 10% of class

## PROFESSIONAL EXPERIENCE

---

**Assistant Director of Clinical AI, AvoMD** 05/2023 - 06/2024

- Developed AvoMD's GPT service called "Ask Avo", advancing diagnostic and treatment guidance.
- Improved Ask Avo's medical accuracy by refining prompts and Python code.
- Integrated latest medical guidelines and AI advancements to maintain cutting-edge relevance.
- Collaborated with a US-based team, demonstrating fluency in English and effective communication.
- Integrated AvoMD with the Epic electronic medical record system, enhancing the "Discharge Summary" feature to deliver rapid, accurate AI-generated patient reports.

**Physician, W Clinic, Dermatology and Laser Center** 06/2023 - 05/2024

- Performed laser hair removal, toning, botox, and lifting with precision and patient-focused care.
- Fostered strong patient relationships, prioritizing comfort and satisfaction.
- Collaborated with staff to enhance team efficiency and patient experience.
- Trained team members in procedures and stayed current with dermatology advancements.

**Clinical Extern, Massachusetts General Cancer Center** 03/2023 - 04/2023

- Completed a 4-week externship rotating through multiple oncology subspecialties.
- Shadowed oncologists during consultations, treatment planning, and follow-ups.
- Attended tumor board meetings and educational sessions to stay updated on oncology.
- Delivered a well-received presentation on cytokine release syndrome and immune effector cell-associated neurotoxicity syndrome.
- Conducted a case presentation on a patient with metastatic HPV-positive squamous cell carcinoma

## RESEARCH EXPERIENCE

---

**Lead Author**, Englewood Health and Medical Center  
Advisor, Anita Ramsetty, MD

05/2025 – PRESENT

- Lead a 12-week nutritional intervention study in 15 patients with uncontrolled type 2 diabetes (HbA1c > 7%).
- Performed comprehensive statistical analyses on the effects of home-delivered healthy meals on glycemic control, including HbA1c, body weight, and continuous glucose monitoring metrics.
- Drafting the manuscript summarizing study findings for submission to a peer-reviewed journal.

**Lead Author**, Englewood Health and Medical Center  
Advisor, Mindy Goldfischer, MD

01/2025 – PRESENT

- Designed and led a study assessing the prevalence of breast arterial calcification on screening mammograms in women under 50 and its association with cardiovascular disease
- Reviewed electronic medical records for over 300 patients to extract personal and family CVD histories and calculate ASCVD risk scores
- Performing statistical analyses to evaluate correlations between BAC presence and cardiovascular outcomes, and drafting the manuscript.

**Co-author**, Dana-Farber Cancer Institute, Dept. of Hematologic Oncology  
Advisor, Inhye Ahn, MD

01/2023 - 07/2023

- Co-authored a review on CLL prognostic factors in the era of targeted therapy.
- Conducted a comprehensive review of 130+ papers to compile data and findings.
- Created tables and figures to clarify key genetic variables like TP53, IGHV, and karyotype.
- Incorporated peer review feedback to enhance the manuscript's quality and relevance.

## PUBLICATIONS / PRESENTATIONS

---

### PUBLICATIONS

- Published – Acta Haematologica  
**Sorang Kang**, Inhye E. Ahn; Prognostic Markers in the Era of Targeted Therapies. *Acta Haematol* 25 January 2024; 147 (1): 33–46. <https://doi.org/10.1159/000533704>

### PRESENTATIONS

- Poster Presentation – ENDO 2025  
**Sorang Kang**, Alyssa Foster, Rachel Bier; Nonstandard Hormonal Management of Gynecomastia and Bone Health in a BRCA2-Positive Male on Androgen Deprivation Therapy.

## INTERESTS

---

**Swimmer:** Developed discipline and stamina through competitive training, mastering butterfly, backstroke, breaststroke, and freestyle

**Traveler:** Explored 20+ countries across Asia, Europe, and North America, honing adaptability and cultural curiosity

**Foodie:** Passionate about discovering culinary gems in Seoul and now NYC/NJ
